

# Cisco Desktop as a Service Solution With Desktone

## Rest easy, Desktone's DaaS Platform is Cisco Validated Design Certified....

Hi Gates,  
I wanted to share some exciting news from Desktone, the industry pioneer of Desktop as a Service (DaaS). We're excited to announce that Desktone is the first desktop virtualization vendor to be granted Cisco's Cisco Validated Design (CVD) Status for Desktops as a Service (DaaS). As you may know being part of this elite program ensures that our DaaS service provider partners can rest assured knowing that Cisco has thoroughly tested the Desktone desktop virtualization platform reducing any risk of deploying technology solutions.

### What are Cisco® Validated Designs?

The CVD program consists of systems and solutions designed, tested, and documented to facilitate faster, more reliable, and more predictable customer deployments. For more information visit <http://www.cisco.com/go/designzone>

### What does this mean for you?

The Cisco Desktop as a Service (DaaS) Solution with Desktone enables service providers to offer affordable, scalable and secure hosted desktops from the cloud to any device, a simplified alternative to traditional onsite desktop virtualization. The Cisco DaaS Solution with Desktone is built to be highly scalable and supports multi-tenancy. The Solution is built by combining data center, network, and security technologies from Cisco and desktop virtualization technologies from Desktone.

You can read more about [Dekstone's Cisco CVD](#)

on Cisco's website.

If you're attending VMWorld in San Francisco this month, be sure to stop by the [Deskstone booth #2328](#)

to learn how you can leverage our platform to deliver cloud hosted Desktops as a Service to your customers and end-users.

If you'd like to see a live Deskstone DaaS Platform Demo, please contact [info@desktone.com](mailto:info@desktone.com)

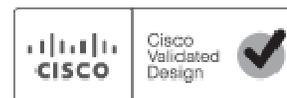

or your Deskstone rep directly.
